## PROJECTS

### Learn With Us

- The "Learn With Us" platform serves as an educational portal for aspiring software developers.
- Utilized React.js to design a user-friendly interface, ensuring easy navigation, swift loading, and catering to a modern aesthetic
- Leveraged MongoDB for secure and robust data storage capabilities, ensuring all information was easily accessible and updated in real-time.
- Incorporated responsive design principles to ensure the website's seamless operation across different devices and screen sizes.
- The platform contains comprehensive information on numerous Software Development Courses available online, simplifying the process of course selection for the learners.
- Technology Used - Node.js , Express.js , MongoDB ,React.js

### We Care

- Engineered an effective online platform, named "We Care," which handled patient bookings and consultations.
- Used front-end technologies to create an interactive and user-friendly interface ensuring easy navigation and swift bookings.
- Developed an advanced booking system that allowed patients to schedule, cancel, or modify appointments with ease.
- Integrated an online consultation feature which facilitated communication between doctors and patients, and allowed for maintaining digital records of consultations.
- Ran comprehensive tests to ensure seamless operation across different devices and screen sizes.
- Technology Used - Node.js , Express.js , MongoDB ,React.js

## EDUCATION

B.Tech in Computer Science & Engineering  
Chitkara University

📅 CGPA: 7.96

📍 CUIET 2021-2025

Senior Secondary Examination CBSE - Class XII  
Kendriya Vidyala No.4 JRC

📅 Percentage: 71.4%

📍 CBSE-2021

Secondary School Examination CBSE - Class X  
Kendriya Vidyala No.4 JRC

📅 Percentage: 70.6%

📍 CBSE-2019

## PROFILE

Results-driven Computer Science student with a demonstrated aptitude for programming, problem-solving, and analytical thinking. Adept at the application of programming languages including JAVascript, Java , I possess a versatile coding skill set. In addition, my expertise extends to the effective use of data algorithms and structures. Passionate about tackling challenging technologic issues, I have shown consistent dedication in all my projects, resulting in well-executed software . With an academic background solidly entrenched in computer theory and practicum, I bring forth strong design and optimization skills.

## CODING PROFILE

- Leetcode - enter\_your\_id

## TECHNICAL SKILLS

- Programming Languages: Java, C++(Basic) , JavaScript
- Data Structures & Algorithm
- Object Oriented Programming
- Operating System , Computer Networks
- MongoDB , Git/Github , ReactJs

## CERTIFICATIONS

- Introduction to C++ - Coding Ninjas
- Introduction to Python - Coding Ninjas
- Advanced Web Development - Udemy
- Graphic Designing - Coursera
